ADHESIVE & SEALANT

TVM-SE-069

www.BULLSEAL.com

Tool Box in a Tube!

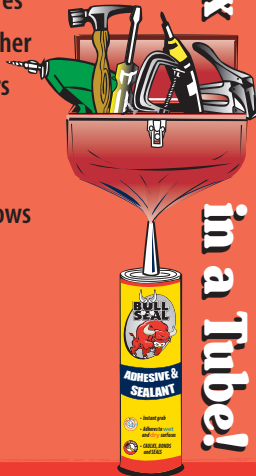

TVM's Bull Seal is a MS Polymer™ based adhesive sealant that will cure to form a bull strength seal even when applied under water! Bull Seal is an all-in-one product that will outperform any latex, silicone and polyurethane adhesive & sealant products on the market with its high initial tack strength and the ability to caulk, seal and bond. Eliminate all fasteners and guesswork, TVM's Bull Seal is the only adhesive sealant product you'll ever need!

Perfect product solution for:

- All fastening applications
- Repairing under water leaks
- Filling gaps and cracks
- Hanging pictures, mirrors and paintings
- Repairing broken furniture / objects
- Mending chipped or broken toilets, sinks, and shower stalls
- Fastening control panels / electrical boxes
- Fastening outdoor fixtures
- Gluing model toys together
- Around the house repairs
- Hard to clamp areas
- Tiling and flooring
- Sealing doors and windows
- Ductwork
- Caulking around pipes
- Decking / fencing
- Plumbing

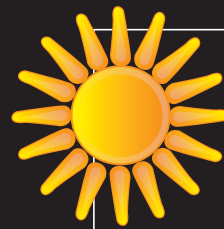

Tool Box

in a Tube!
